Thodupuzha, Kerala | 9074429889 | ambrozr11@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Mechanical Engineering graduate from College of Engineering Trivandrum with strong analytical, numerical, and technical problem-solving skills. Developing expertise in Artificial Intelligence, Machine Learning and Data Science with hands-on exposure to Python-based data analysis and deep learning. Experienced in numerical investigation, engineering optimization, MATLAB and technical project work. Seeking an entry-level AI/ML, Data Science or technology role where engineering problem-solving and computational skills can be applied to real-world problems.

EDUCATION

Kendriya Vidyalaya Idukki	Kerala, India
<i>School Education</i>	2010 – 2019
St. George HSS, Thodupuzha	Kerala, India
<i>Higher Secondary Education – Classes 11 and 12</i>	2019 – 2021
College of Engineering Trivandrum (CET)	Kerala, India
<i>Bachelor of Engineering – Mechanical Engineering</i>	2021 – May 2025

TECHNICAL SKILLS

Programming: Python, MATLAB
Machine Learning: Machine Learning Fundamentals, Deep Learning Fundamentals, Convolutional Neural Networks (CNN)
Data Science: Data Analysis, Data Preprocessing, Data Visualization, Numerical Analysis
Libraries / Frameworks: TensorFlow, Keras, NumPy, pandas, Matplotlib
Engineering Tools: AutoCAD, Fusion 360, Basic Computational Fluid Dynamics (CFD)
Core Skills: Problem Solving, Optimization, Analytical Thinking, Project Management, Team Collaboration

PROJECTS

- Cat vs Dog Image Classification using CNN** | *Python, TensorFlow, Keras, Matplotlib* August 2026
- Built a Convolutional Neural Network (CNN) for binary image classification of cats and dogs.
 - Prepared image datasets for model training and validation and implemented image preprocessing techniques.
 - Designed convolution, pooling and fully connected layers to extract image features and perform classification.
 - Evaluated model predictions on validation images and visualized predicted classes using Python and Matplotlib.
- Numerical Investigation and Optimization of Hollow-Core Radial Slotted Pin Fin Heat Sink** 2025
- Conducted numerical investigation of a hollow-core radial slotted pin-fin heat sink to study thermal performance.
 - Analyzed engineering parameters and investigated design configurations to improve heat-transfer performance.
 - Applied numerical analysis, optimization and engineering problem-solving techniques to evaluate system performance.
 - Developed experience interpreting computational results and drawing engineering conclusions from numerical data.

TECHNICAL TRAINING & WORKSHOPS

- MATLAB Workshop** 2023
- Participated in a MATLAB workshop conducted as part of RITU'23 at Rajiv Gandhi Institute of Technology, Kottayam.
- Fusion 360 Workshop** 2023
- Received practical exposure to Fusion 360 for engineering design and modelling applications.
- Automotive Diagnostics & Tuning** 2022
- Completed a two-day technical workshop conducted by Techmaghi in association with the Science and Technology Council, IIT (BHU) Varanasi.
- Electric and Future Mobility** 2022
- Participated in a two-day workshop covering developments in electric vehicles and future mobility technologies.

LEADERSHIP & EXPERIENCE

Data Science, AI and ML Intern

Edutantr Bengaluru

August 2026

Bengaluru

- Performed data cleaning, preprocessing and analysis using Python, Pandas and NumPy.
- Created data visualizations using Matplotlib and Seaborn.
- Applied machine learning techniques using Scikit-learn.
- Developed CNN-based deep learning models using TensorFlow and Keras.
- Worked on image classification and model evaluation.

Hospitality Head – Override 2025

Mechanical Department Fest, College of Engineering Trivandrum

2025

Kerala

- Led hospitality operations and coordinated guest reception, participant support and event logistics.
- Collaborated with multiple committees to ensure smooth execution of departmental events.

Sports Head – Override 2025

Mechanical Department Fest, College of Engineering Trivandrum

2025

Kerala

- Organized and managed competitive sports events including scheduling, venue setup and participant coordination.
- Demonstrated leadership, teamwork and time-management skills while coordinating multiple activities.

Marketing & General Management Volunteer – Dhvani'24

College of Engineering Trivandrum

2024

Kerala

- Supported marketing outreach, volunteer coordination and general event-management activities.

CERTIFICATIONS

NPTEL Online Certification

ACTIVITIES & ACHIEVEMENTS

- **Member – Aeronautical Society of India**
- **Member – College Football Team, College of Engineering Trivandrum**
- **Champion – A-Zone Football Tournament, 2022–23 and 2023–24**
- **Champion – Torque Football Tournament, 2022–23**
